

# Spanish Ranch Brangus Cattle - Bred for the West

From the Vaqueros to the 49ers And Now Throughout the West  
The Spanish Ranch Has What YOU Need!

Cattle were first introduced into California's Cuyama Valley in the 1840s. We now bring you today's Brangus and Ultrablack cattle designed for the West:

- ★ IBBA Registered
- ★ Hardy & Range Ready
- ★ Black-hided & Clean Sheathed
- ★ Excellent Dispositions
- ★ DNA & Ultrasound Tested
- ★ Tender Scan Carcass Quality Verified

## Registered Brangus & Ultrablack Bulls:

Spanish Ranch Brangus bulls are IBBA registered, PHN tagged and branded, range-raised on short grass, hay and mineral supplement. Our health program includes early calf, weaning and yearling vaccinations, deworming, followed by lifetime anaplasmosis vaccinating, trich and brucellosis testing negative. All bulls are DNA, ultrasound and Tender Scan tested. At maturity, bulls are fertility tested prior to sale. All are worked on foot, horseback and with 4-wheelers, broke to water and feed bunks and ready to go.

## Registered Brangus & Ultrablack Females:

All Spanish Ranch Females are IBBA registered, PHN tagged and branded, range-raised on short grass, hay and mineral supplement. Our health program includes early calf, weaning and yearling vaccinations, de-worming, lifetime Foothill Abortion vaccinating and BANGS. They are also DNA and ultrasound evaluated, and Tender Scan tested. All are worked on foot, horseback and with 4-wheelers, broke to water and feed bunks, ready to go.
